

COMPANY INFORMATION

RETTERSPITZ GMBH & CO. KG

ABOUT RETTERSPLITZ

Retterspitz is a family company that produces and sells anti-aging, body care and wellness products as well as home fragrances, in addition to traditional items for the home medicine cabinet. All products are distributed under the name *Retterspitz*. The company is headquartered in Schwaig-Behringersdorf near Nuremberg.

The company can trace its beginnings back to Margarete *Retterspitz*, born in 1851, who produced a healing water in 1895, which she registered as a trademark in 1901 under the name “Retterspitz-Universal-Heilwickel-Bäder” (universal healing wraps and medicinal baths). In 1902, the pharmacist Hans Scheck acquired the formula, staked everything on the “Retterspitz-Wasser-Äußerlich” card and founded the company. Thus, *Retterspitz* is one of the oldest pharmacy brands in Germany.

For 120 years, *Retterspitz* has operated as a family business and is now managed in the fourth generation by the owners: Markus Valet, Head of Administration, and Florian Valet, Head of Development. The company produces and sells products in the categories of “remedies”, “wraps”, “care”, “medical cosmetics”, “wellbeing” and “fragrance”. All *Retterspitz* products are available from pharmacies without prescription. The non-pharmacy-exclusive products can also be ordered directly from the *Retterspitz* online shop. All products, except *Retterspitz Bronchial*, can be bought at the *Retterspitz* flagship store in Nuremberg’s Augustinerhof, too.

Retterspitz combines traditional healing expertise that meets modern standards with the latest scientific research. The effectiveness and tolerability of natural ingredients and tried-and-tested additives is always the number-one priority.

Retterspitz Innerlich and *Retterspitz Äußerlich* are the oldest and also best known *Retterspitz* products.

Retterspitz Innerlich is a liquid medicinal device for oral use, to restore the physiological stomach environment in cases of heartburn, functional dyspepsia, hypochlorhydria, hyperacidity, feelings of fullness, flatulence and stomach ache.

Retterspitz Äußerlich is a liquid medicinal device for external application with a wrap, compress or stockings and is used in physical therapy. The wraps "*Retterspitz Wickel*" have a pain-relieving, swelling-reducing and anti-inflammatory effect, which quickly sets in and provides relief.

The company offers several special wraps in various sizes for physical therapy. *Retterspitz Wickel* are sold exclusively by *Retterspitz GmbH & Co. KG*. They are available directly from *Retterspitz GmbH & Co. KG*, in pharmacies and in specialist stores.

INGREDIENTS

All *Retterspitz* products are distinguished by their excellent tolerability. An important base ingredient of many *Retterspitz* products is thymol, a derivative of thyme essential oil. In specialist literature, thymol is described as having anti-bacterial and anti-inflammatory properties. Because it is so versatile, thymol is used in a number of *Retterspitz* products. Besides thymol, other natural ingredients such as essential oils and essences can be found in *Retterspitz* products in the categories of "remedies", "care" and "wellbeing".

RETTERSPITZ FLAGSHIP STORE

Retterspitz opened its first flagship store in Nuremberg in the summer of 2021. In the heart of the city center, visitors can experience the company's philosophy in an environment of modernity and history as well as in a fascinating setting of careful details and lived regionality.

A terraced presentation wall including a water cascade made of Jura marble and a central block with an integrated water basin act as visual highlights. The comprehensive lighting concept, the plants growing directly out of the ground, a terrazzo floor made of polished Danube pebbles as well as the historic-style pharmacy room made of refined wood complete the interior design concept. Signature clothing and music compilations created especially for *Retterspitz* round off the experience for all senses.

It is the combination of tradition and contemporary, of the past and the present, that gives the *Retterspitz* brand its special appeal. This philosophy was brought to life in the *Retterspitz* flagship store. That was rewarded by the juries of the German Design Award and the iF Design Award, which honored the *Retterspitz* flagship store in 2023 for remarkable design achievements.

MANAGEMENT AND EMPLOYEES

The company is based in Berhingersdorf near Nuremberg. *Retterspitz GmbH & Co. KG* is managed in fourth generation by the owners: Markus Valet, MBA, and Florian Valet, Head of Development. Today, more than 70 people, including permanent freelancers, work for the company. Sound values are at the core of what they do and say both internally and externally. "Cult status is achieved through passion," say both owners, very much in the spirit of the much-quoted phrase: "Tradition means preserving the embers, not the ashes."

Retterspitz healing products are available in Germany and Austria.

Retterspitz care and lifestyle products are distributed throughout Europe (excluding UK and Switzerland).
