

COMPANY INFORMATION

RETTERSPLITZ GMBH & CO. KG

ABOUT RETTERSPLITZ

Retterspitz is a family company that, in addition to traditional items for the home medicine cabinet, produces and sells anti-ageing, body care and wellness products as well as home fragrances. All products are marketed under the name *Retterspitz*. The company is headquartered in Schwaig-Behringensdorf, near Nuremberg.

The company can trace its beginnings back to Margarete Weber, born in 1851, who produced a healing remedy in 1895, which she would go on to register as a trademark under the name of “Universal-Heilwickel-Bäder” (universal healing wraps and medicinal baths) in 1901. In 1902, the pharmacist Hans Scheck purchased the formula, staked everything on “*Retterspitz-Wasser-Äußerlich*” and founded the company. This makes *Retterspitz* one of the oldest pharmacy brands in Germany.

For 120 years, *Retterspitz* has been run as a family business and is now managed by the fourth generation: Markus Valet, Head of Administration, and Florian Valet, Head of Development. *Retterspitz* products are divided into the categories “remedies”, “wraps”, “care”, “medical cosmetics”, “wellbeing” and “fragrances”. All *Retterspitz* products are available from pharmacies without prescription. All products that are not pharmacy exclusives can be ordered directly from the *Retterspitz* online shop.

And time marches on: To be even closer to its customers, *Retterspitz* opened its first own flagship store in Nuremberg in summer 2021. It offers a space for the wide range of products to be discovered and experienced in an inviting atmosphere.

Retterspitz combines traditional healing expertise that meets modern standards with the latest scientific research. The effectiveness and tolerability of natural ingredients and tried-and-tested additives is always the number-one priority.

RETTERSPLITZ PRODUCTS AND APPLICATIONS

Retterspitz Innerlich and *Retterspitz Äußerlich* count among the oldest and best known of the *Retterspitz* products.

Retterspitz Innerlich is used to restore balance to the physiological environment of the stomach in the event of heartburn, functional dyspepsia, hypochlorhydria, hyperchlorhydria, feelings of fullness, flatulence and stomach ache.

Retterspitz Äußerlich is used for the external application with a wrap, compress or stockings and is used in physical therapy. The wraps "*Retterspitz Wickel*" have a pain-relieving, swelling-reducing and anti-inflammatory effect, which quickly sets in and provides relief.

The company offers several specialised wraps in various sizes for physical therapy. *Retterspitz Wickel* are sold exclusively by *Retterspitz GmbH & Co. KG*. They are available directly from *Retterspitz GmbH & Co. KG*, in pharmacies and in specialist stores.

The category "care" also includes the "medical cosmetics" series. These products are free from vaseline and paraffin.

INGREDIENTS

All *Retterspitz* products are distinguished by their excellent tolerability. An important base ingredient of many *Retterspitz* products is thymol, a derivative of thyme essential oil. In specialist literature, thymol is described as having anti-bacterial and anti-inflammatory properties. Because it is so versatile, thymol is used in a number of *Retterspitz* products: Always as part of a balanced mix of other ingredients that support the effects of thymol.

Other natural ingredients used in *Retterspitz* products include rosemary, arnica, eucalyptus, camphor, menthol, peppermint, anise, jojoba oil, olive oil, peanut oil and fennel oil.

MANAGEMENT AND EMPLOYEES

Retterspitz GmbH & Co. KG is a family business now run by the fourth generation: Markus Valet, Head of Administration, and Florian Valet, Head of Development. Today, more than 60 people – including regular freelancers – work for the company. Reliable values are at the core of what they do and say both internally and externally and both owners believe that “cult status is achieved through passion,” very much in the spirit of the quote by Anton Wolfgang Graf from Faber-Castell: “tradition means preserving the embers, not the ashes.”

Retterspitz products are sold throughout Europe (excluding the UK and Switzerland).
